Blockchain technology is a decentralized and
ecure system of recording and verifying
ransactions across a network of computers. It
perates as a chain of blocks, where each block
ontains a list of transactions, and once added, it
s cryptographically linked to the previous block.
ey features include decentralization, distributed
edger, immutability, consensus mechanisms, and
he ability to execute self-enforcing smart
ontracts. Blockchain has applications beyond
ryptocurrencies, extending to areas such as
inance, supply chain management, healthcare,
nd more, offering transparency, security, and
fficiency in various industries.
