The Objectives and Functions

Following are the main objectives and functions of a 'Lead College'.

I) Sharing of the information:

A Lead College is expected 'to lead' the entire process of the Total Quality Management of the cluster. Therefore, the primary function of a 'Lead College' is to collect and update all sorts of information regarding HE. The speedy changes in the field of science and technology, ICT, Research in the field of knowledge, information regarding various schemes of various authorities/ organizations in the field of HE, recent policies of HE etc. are the major fields of information. Distribution of such information to the other colleges in the cluster through the electronic media like WAN or LAN and Internet is also the responsibility of the 'Lead College'. The information regarding the various grants offered by the and such other funding agencies, the information regarding the activities of 'NAAC' and the re-accreditation process, the information of the world-wide/country-wide classrooms, e-content and e-learning should be imparted by the 'Lead College' to the other colleges in its cluster.

II) Sharing of the Infrastructure, Library, Laboratories, Sports Facilities (Grounds), Big Halls/Stadium /LCD etc.:

Here the process is of mutual co-operation. The 'Lead College' should provide its own infrastructure and other facilities to the neighbouring colleges in the cluster and the neighbouring colleges can also do the same if they have such facilities with them. The idea is to make better use of the resources available in the constituent colleges for those who need them. (within the cluster).

(Let us Join hands with mutual understanding and sincere efforts for Quality Assurance to face the challenges of the globalization, privatization, liberalization and computerization of our Higher Education)
