## Science Association

### About:

Science unveils the mysteries of nature through observation and experimentation, offering a pathway to understanding the world around us. It empowers humanity with knowledge and fuels our curiosity to explore the unknown. Science is the poetry of the universe, where equations dance like stardust and theories paint the cosmos with the colours of understanding. With this spirit, the Science Association of Balasaheb Desai College, Patan take a pride in bringing science to life by accommodating students with a keen interest in science, and providing them with the platform to showcase and even sharpen their skills. Established with an aim to foster interest for science, it sparks out fuel in the mind of science students, who seek to recognize an interest in scientific activities, and it further nurtures this interest with the help of inter and intra college extra-curricular activities.
