Course Outcomes (CO) Attainment:

Sr	
1.	CO1: Demonstrate proficiency in fundamental concepts of computer applications and information technology.
2	CO2: Apply problem-solving techniques and algorithms to develop software solutions.
3	CO3: Design and implement computer-based systems to meet specified requirements.
4	CO4: Analyze and evaluate computer systems and their components
5	CO5: Communicate effectively and work collaboratively in multidisciplinary teams.
6	CO6: Recognize the importance of ethical and professional responsibilities in IT practice
7	CO7: Engage in lifelong learning and adapt to emerging technologies in the IT field.

Program Outcomes (PO) Attainment:

Sr	
1	PO1: Graduates will possess a strong foundation in computer applications and related disciplines.
2	PO2: Graduates will demonstrate the ability to apply knowledge of computing and mathematics appropriate to the discipline.
3	PO3: Graduates will be able to design, implement, and evaluate computer-based systems to meet desired needs.
4	PO4: Graduates will exhibit professional and ethical responsibilities in IT practice.
5	PO5: Graduates will be able to function effectively as individuals and in multidisciplinary teams.
6	PO6: Graduates will communicate effectively with a range of audiences.
7	PO7: Graduates will recognize the need for and engage in lifelong learning.
