Report:

The Department of Computer Applications presented the *Vainteya* wallpaper on IoT on 4th September 2023. Tukaram Shinde, a BCA II year student, expressed his ideas through this wallpaper presentation. The Internet of Things (IoT) is a rapidly evolving technology that connects everyday objects to the internet, enabling them to send and receive data. These "smart" devices can range from home appliances like refrigerators and thermostats to industrial machinery and healthcare equipment. Principal Dr. S. D. Pawar, IQAC Coordinator Dr. H. V. Kate, Mrs. A. R. Mane, and Mr. Anil Patil were present for the event. Mr. Anil T. Surar (HOD) expressed the vote of thanks.
